onset of dental diseases like caries and periodontal issues.

2. Equity

Ensuring access to oral health services for all, regardless of socioeconomic status, ethnicity, or geographic location, is fundamental. Reducing disparities is a primary goal.

3. Community Participation

Engaging communities in planning, implementing, and evaluating oral health programs fosters ownership and sustainability.

4. Intersectoral Collaboration

Collaborating with other sectors such as education, nutrition, and social services enhances the effectiveness of oral health initiatives.

5. Evidence-Based Practice

Decisions are grounded in scientific research and epidemiological data to ensure interventions are effective and appropriate.

Roles and Responsibilities of a Public Health Dentist
