Understanding OB through real-life case studies helps managers and students grasp complex concepts and apply theoretical knowledge to practical situations. Case studies with answers serve as valuable tools for analyzing organisational challenges, decision-making processes, and human dynamics, thereby facilitating better management practices and leadership development. This article presents a collection of detailed organisational behaviour case studies accompanied by comprehensive answers. These cases cover various OB concepts such as motivation, leadership, communication, conflict resolution, team dynamics, and organisational culture. By examining these scenarios, readers can enhance their analytical skills, learn to identify underlying issues, and develop effective solutions rooted in organisational behaviour principles. Case Study 1:

Motivation and Employee Engagement Background ABC Manufacturing is experiencing a decline in productivity and employee morale. The company’s management noticed increased absenteeism, late arrivals, and a lack of enthusiasm among workers. The HR manager conducted surveys and found that employees felt their efforts were not recognized or rewarded adequately. The management team wants to identify the root causes and improve motivation levels. Key Issues - Lack of recognition and rewards - Limited opportunities for growth - Poor communication of organizational goals - Low intrinsic motivation Analysis The case highlights the importance of motivation theories such as Maslow’s Hierarchy of Needs and Herzberg’s Two-Factor Theory. Employees’ dissatisfaction stems from unmet esteem and self-actualization needs, leading to decreased motivation. Solution The management should implement the following strategies:

1. Introduce a recognition program to acknowledge employee achievements regularly.
2. Provide opportunities for skill development and career advancement.
3. Enhance communication about organizational goals and individual contributions.
4. Implement both extrinsic rewards (bonuses, incentives) and intrinsic motivators (meaningful work, autonomy).

Conclusion By addressing both hygiene factors and

motivators, ABC Manufacturing can boost employee engagement, leading to increased productivity and a positive work environment. Case Study 2: Leadership and Change Management Background XYZ Tech Solutions is undergoing a major technological upgrade. The leadership team decided to implement a new project management software to improve efficiency. However, employees resist change, citing fears of job redundancy and unfamiliarity with the new system. The CEO seeks to understand how to manage this change effectively. Key Issues - Resistance to change - Fear of job loss - Lack of effective communication - Inadequate training and support Analysis The case demonstrates the importance of Lewin’s Change Management Model, which involves unfreezing, changing, and refreezing. Resistance often occurs during the unfreezing stage, where employees are comfortable with existing routines. Solution The management should:

1. Communicate the purpose and benefits of the change transparently to reduce uncertainty.
2. Involve employees in the change process to foster ownership and reduce resistance.
3. Provide comprehensive training and continuous support during the transition.
4. Address fears directly by assuring job security and clarifying roles.

Conclusion Effective change management requires strategic communication, participation, and support.

Following Lewin’s model ensures smoother transitions and greater acceptance of organizational change. Case Study 3: Conflict Resolution in Teams Background LMN Advertising Agency has a team working on a high-stakes campaign. Tensions have risen between the creative team and the account managers due to miscommunication, missed deadlines, and conflicting priorities. The project manager needs to resolve conflicts to meet client expectations. Key Issues - Poor communication - Role ambiguity - Personality clashes - Lack of trust Analysis The case underscores the significance of conflict management styles such as Thomas-Kilmann’s Conflict Mode Instrument. The team exhibits signs of competing and avoiding styles, which exacerbate tensions. Solution The project manager should:

1. Facilitate open communication to understand each party’s perspectives.
2. Clarify roles and responsibilities to reduce ambiguity.
3. Promote collaborative problem-solving to find mutually acceptable solutions.
4. Build team trust through team-building activities and regular meetings.

Conclusion Resolving conflicts constructively can enhance team cohesion, improve performance, and lead to successful project completion. Case Study 4: Team Dynamics and Effectiveness Background PQR Retail Chain recently formed a new sales team to expand its market

reach. The team members come from diverse backgrounds, and initial meetings were marked by misunderstandings and lack of cohesion. The team leader wants to foster effective teamwork. Key Issues - Diversity-related misunderstandings - Lack of shared goals - Absence of trust - Poor communication Analysis The case illustrates Tuckman’s stages of group development: forming, storming, norming, performing. The team is in the forming/storming phase, where conflicts and uncertainties are common. Solution The team leader should:

1. Establish clear goals and roles to give direction.
2. Encourage open communication and active listening.
3. Facilitate team-building exercises to build trust and rapport.
4. Promote a culture of diversity appreciation and inclusion.

Conclusion Progressing through team development stages with deliberate strategies leads to high-performing teams capable of achieving organizational objectives. Case Study 5: Organisational Culture and Employee Behaviour Background DEF Financial Services has a hierarchical culture emphasizing authority and control. While this has maintained order, it has also led to low employee engagement, innovation, and high turnover. The new CEO aims to transform the culture to foster creativity and initiative. Key Issues - Rigid hierarchy discouraging

initiative - Fear of failure - Lack of employee empowerment - Resistance to change Analysis The case highlights the importance of organizational culture models such as Schein’s Culture Model. Cultivating a clan or adhocracy culture can promote innovation and employee involvement. Solution The leadership should:

1. Promote values of openness, participation, and shared leadership.
2. Encourage risk-taking and view failures as learning opportunities.
3. Implement policies that empower employees at all levels.
4. Lead by example to demonstrate commitment to cultural change.

Conclusion Transforming organizational culture requires strategic initiatives, consistent leadership, and employee engagement. A shift towards a more flexible and innovative culture can improve performance and retention. Whether you're a student, a HR professional, or a management enthusiast, this comprehensive guide will enhance your understanding of OB concepts through illustrative examples and thorough explanations.

Understanding Organisational

Behaviour Case Studies

Case studies in OB are detailed narratives that describe specific organizational situations, problems, or phenomena. They enable learners and professionals to analyze real or simulated scenarios, apply theoretical frameworks, and develop problem-solving skills. The core purpose is to bridge the gap between theory and practice, fostering critical thinking and decision-making abilities. Key Components of OB Case Studies: - Background Information: Context about the organization, industry, and environment. - Problem Statement: The central issue or challenge faced by the organization. - Stakeholders: Individuals or groups affected by or involved in the issue. - Analysis: Application of OB theories and concepts. - Solutions/Answers: Recommendations or resolutions based on analysis. - Outcome: The results of implementing the solutions.

Types of Organisational Behaviour Case Studies

OB case studies can be categorized based on the focus area, complexity, and purpose: 1. Behavioral Challenges Focus on individual or group behavior issues, such as motivation, leadership, communication, or conflict resolution. 2. Organizational Change Examine how organizations manage change, resistance, and

transformation processes. 3. Cultural and Diversity Issues Address challenges related to organizational culture, diversity, and inclusion. 4. Performance Management Look into performance appraisal systems, productivity, and employee engagement. 5. Ethical Dilemmas Explore ethical conflicts and corporate social responsibility concerns.

Sample Organisational Behaviour Case Study with Answer

To illustrate how case studies function in practice, let's analyze a classic scenario involving motivation and leadership. Case Study: "The Motivation Dilemma at XYZ Tech" Background: XYZ Tech is a rapidly growing software development firm. Despite its success, employee morale is declining, leading to increased turnover and decreased productivity. The HR manager notices that employees feel undervalued, and managers struggle to motivate their teams. Problem Statement: The organization needs to improve employee motivation to sustain growth and maintain a positive work environment. Stakeholders: - Employees - Managers - HR Department - Senior Leadership Analysis: Applying the Maslow’s Hierarchy of Needs and Herzberg’s Two-Factor Theory, we analyze the motivational issues. 1. Maslow’s Hierarchy of Needs: - Employees may be lacking in esteem and self-actualization needs due to inadequate recognition and

challenging work. - Basic needs seem met, but higher-level needs are unmet, leading to dissatisfaction. 2. Herzberg’s Two-Factor Theory: - Hygiene factors (salary, work environment) may be insufficient. - Motivators (recognition, achievement) are lacking, which affects motivation. 3. Leadership Style: - The management primarily employs an authoritative approach, which might suppress employee initiative. Solution: Based on the analysis, the following strategies are recommended: - Implement Recognition Programs: Regular acknowledgment of employee achievements to boost esteem needs. - Provide Challenging Work: Enrich job roles to facilitate self-actualization. - Adopt Participative Leadership: Encourage employee involvement in decision-making. - Enhance Work Environment: Improve physical and psychological work conditions. - Training and Development: Offer skill enhancement opportunities to foster growth. Outcome: Post-implementation, XYZ Tech reports improved employee engagement scores, reduced turnover, and increased productivity, demonstrating the effectiveness of applying OB theories.
