Sample Problems and Solutions from Volume 2

To illustrate the depth and application of the lecture notes, here are sample problems typical of the senior olympiad level, along with concise solutions.

Problem 1: Number Theory

Prove that for any prime $p > 3$, $p^2 - 1$ is divisible by 24. Solution: - Since $p > 3$, p is odd, so $p \equiv 1 \text{ or } 3 \pmod{6}$. - $p^2 - 1 = (p-1)(p+1)$. - Both $p-1$ and $p+1$ are even, so their product is divisible by 4. - One of these is divisible by 3, since consecutive numbers modulo 3 are 0 and 2 or 1 and 2,

but for primes greater than 3, $p \equiv 1 \text{ or } 2 \pmod{3}$. - The two factors are consecutive even numbers, so their product is divisible by 8 as well. - Combining divisibility by 8 and 3 yields divisibility by 24.

Problem 2: Geometry

In triangle ABC, point D lies on side BC. The lines AD and BC intersect at D. If $AB = AC$, prove that D is the midpoint of BC. Solution: - Since $AB = AC$, triangle ABC is isosceles with $AB = AC$. - The median from A to BC is also the altitude and angle bisector. - If D lies on BC such that AD intersects BC at D, and D is the point where the line AD intersects BC, then D must be the midpoint of BC. - This is because in an isosceles triangle, the median from the apex A is also the angle bisector and altitude, which divides BC equally.

Offline access ensures that learning and reading remain flexible and independent of network availability.

Customization options significantly improve reading comfort. eBooks allow readers to adjust font size, font type, line spacing, background color, and layout. These adjustments reduce eye strain and accommodate individual preferences or visual needs. Night mode, sepia backgrounds, and brightness controls make long reading sessions more comfortable and sustainable.

Digital copies also reduce physical storage requirements. Instead of shelves filled with books, eBooks are stored digitally, freeing up space at home or in the office. This minimal footprint is particularly

beneficial for users with limited space or those who prefer a clutter-free environment.
